EDUCATION

General Assembly, Toronto, Ontario
Software Engineering Immersive

EXPERIENCE

General Assembly, Toronto, Ontario
Software Engineering Immersive

- Grounding in the fundamentals of Computer science; Algorithms, Data Structures, Design Patterns.
- Developed 3 Full-stack applications both in a team environment and as a solo project.- MERN Stack SPA with ReactJS, MongoDB, Express.js, Node.js, Styled Components.- Django Application with Django, Python, PostgreSQL, Bootstrap. - Full CRUD application with Node.js, Express Mongoose / MongoDB
- Deployed first web application using HTML5, vanillaJS DOM manipulation, and responsive CSS
- Attended GA's Product Management Boot-camp to gain deeper understanding of the Agile / SCRUM process and software development life-cycle.

Drake Hotel Properties, Toronto, Ontario
Corporate Chef, Operations

- Led cross functional teams in project management and product development for property openings, corporate catering programs (LinkedIn, Indeed, Wish), external partnership and retail product lines.
- Designed, developed and documented corporate-wide systems and procedures for; labour scheduling, e-commerce, purchasing, inventory + product costing, health and safety.
- Coached operational teams to excellence, through one on one and group development sessions and goal setting.
- Negotiated operational and capital expense budgets for ongoing operations as well as business case proformas.

PROJECTS

Share-It (Node.js / Express / MongoDB / React / JWT) - [GitHub](#)

- Welcome to Share-it a site made for developers by developers. Our aim is to create a site that lets developers have access to a platform to share ideas and make friends. So welcome our credo is when you have a good idea just share-it.

/your-space/ (HTML / CSS / Python / Django / AWS S3 - Image Upload) - [GitHub](#)

- What does the future of workspace look like? As workspaces start to open up, it can be a struggle to find an ideal space as a freelancer. They need to find a remote-friendly solution to schedule time in the office.

Soothing Lights and Sounds (Skills: HTML / CSS / JavaScript) - [GitHub](#)

- A 5 Button memory procession attempting to be engaging and rewarding while minimizing the frustration augmenting aspects of similar games.
